Terms

Bonus incentive based on placed premium resulting from applications submitted between 04/01/2022-06/30/2022. Any agent that generates at least \$1000 of premium from applications submitted during this period will earn the incentive. Personal and household production does not qualify for the incentive. The incentive program can be changed at any time with or without notice and is fully revocable. Due to underwriting, policies that go in force after the 06/30/2022 deadline will still be eligible for the bonus incentive as long as the application was submitted by 06/30/2021. Incentives earned from policies that free look or lapse in the first year will be rescinded.
